Kimball Dies At Folsom For Slaying Former Chicagoan

(BY UNITED PRESS) THE STATE of California hanged three men today-two at San Quentin, one at Folsom. Alexander Mackay and Joseph Kristy died on the San Quentin gallows for kidnaping members of the state prison board in a break from prison.

Earl Kimball died at Folsom for the murder of James C. Kennett, former Chicago contractor.

SAN QUENTIN, May 22 .- (UP) Climaxing an international "in-Alexander Mackay of Glasgow, Scotland, and Joseph Kristy of Cleveland, O., were hanged on the San Quentin gallows today for kidnaping members of he California prison board in a break from prison here January

They died gamely. The traps were sprung at 10:04 a.m. Both were pronounced dead at 10:14

death months of desperate efforts by the British government to save Mackay on the ground his kidnap victims had not suffered bodily harm and that, therefore, the death penalty was not warranted.

DENIED BY JUDGE

Mrs. Mary Long, of Costa Mesa, oday had emerged from her court battle with Mrs. Grace E. Taylor, over Mrs. Long's husband, with nothing but a moral victory.

She had lost her husband and sit to acquire title to Mrs. Taylor's property. In their place she neld only a doubtful \$5000 damage udgment for alienation of the husband's effections. Superior Judge James L. Allen

yesterday denied Mrs. Long's suit to quiet title to the property, thereby destroying the apparently sole opportunity for Mrs. Long to collect the \$5000 judgment. Mrs. Taylor had gone to Wyoming and her property passed into other

In her suit, heard yesterday, Mrs. ong contended that the transfers of the Taylor property were fraudulent, in order to evade the judg-ment. Evidence was shown, however, that the transfers had taken place as far back as 1927, and the court held them to be valid.

A group of lots in the Newport Heights district was involved. The court gave title to one lot to C. B. Diehl and that of the other lots to Vinifred Brainard.

Brain Twizzlers By Prof. J. D. Flint

Here's an offering that all checker players—and even some chess players—will make short work of. A college professor could solve this in three minutes.

The picture presents seven spaces. Place three pennies on the dark spaces and three dimes on the light paces. The center space is blank. The problem is to move the three pennies into the spaces occupied by the three dimes and the dimes into the position of the pennies. You can move only one space at a time and you can "jump" only one coin t a time and of course you can only "jump" a dime with a penny or vice versa. You cannot move

proves it's an all-around triumph

It's no ordinary coffee, this S & W, and crops, skillful blending, careful roasting, of truly fine coffee . . . the world's best all-around excellence.

On this true test S & W will win your vote Here's the complete story of fine coffee. No "one-virtue" coffee can qualify. S & W checks on every point. That's why it will win your vote for all-around excellence.

QUALITY: To make a good roasted coffee you have to start with good green coffees, S & W

uses the finest. BLENDING: Blending coffees to a uniform and pleasant taste is an art. S & W employs artists. ROASTING: Coffee must be scientifically roasted. But there's no secret about this. It's merely a matter of equipment and expert-ness S & W has both.

FRESHNESS: After roasting, coffee quickly loses its flavor. The modern vacuum can is fool-proof protection. S&W is vacuum packed. PRICE: The best coffee should be within the reach of the average income. S & W is moderately priced.

The City league baseball fraternity was just beginning to recover today from the shock of its first major upset of the season-the 6 to 3 defeat of last year's champion Elks by an underestimated gang from the First Nation-

Driving Claude Gregory out of the box in three innings, the First Nationals took command of the contest from the bell and were never headed. Roy Stout, once signed to an Elk contract, pitched brilliantly for the Bankers. Shaking off the champs' rally in the fourth when Herb Bowe blasted his weekly home run with Alex Clark on, and Cannon and Styring followed with singles, Stout settled down to pitch hitless ball through the last three frames. The Elks made their

earlier run on errors. Gene Hitt's First Nationals took an early liking to Gregory's pitches. They got two in the first on Mann's valk, Gundren's sacrifice, and twobaggers by Young and Pargee. Young opened with a single in the third and Bob Holmes followed with

hits, including a home run by Le-

today had a feud raging on the U. C. L. A. campus. The battle broke out when Gilbert Harrison, editor of the Daily Bruin, campus news paper, was doused with a bucket of dirty water as he walked toward a student union building.

Harrison previously had written an editorial in which he intimated football players did little to earn the 50 cents an hour they received for janitor work in the student union building. Dumping of the water fol-

Chicago Board of Trade

CHICAGO, May 22—(UP)— Prospects for a "squeeze" in May wheat faded today, but the tension on current month contracts was strong enough to restrict trade both in volume and price movement on the Chicago Board of Trade.

At the close wheat was ¼ to %c higher, corn was off % to % cent, and oats was unchanged to off % cent.
Operations in expiring May contracts held the attention of the wheat trade in spite of diminishing fears of a serious "squeeze" before May 26, the final day for closing out May commitments. Liberal selling by holders of cash wheat allayed fears of spectacular gyrations in the old crop months.

FRIDAY,

Today's Guest Editorial

By Logan Jackson, Sheriff of Orange County

The "Guest Editor" selects his own subject matter and it may or may not agree with the opinions ish daily a "guest editorial" by some prominent, practical Orange county citizen.

PROTECT THE RIGHT TO WORK

So long as the citrus industry contributes in a major degree to the welfare of the people of the county, the problems of that industry are of interest to most of us.

That industry not only contributes largely to the tax rolls of the county, it also provides a payroll for thousands of workers, sales for hunfreds of business men, and support to the owners of the orchards.

It has numerous problems, including water supply, pest control, cultivation and fertilization, but one of its chief problems is orderly marketing of the crop. That problem is affected by various elements of which one is the question of labor. Picking citrus fruit has largely become in this county a task delegated to Mexican

Our experience in the industry has been that the Mexicans are good laborers and that they have been generally satisfied with conditions existing in the industry. They have earned wages far in excess of those paid to their countrymen below the border; they have been provided with schools and they have been treated with a con-

Recently, however, certain agitators, who have created trouble and even bloodshed in other parts of the state, have invaded this county. They have made every effort to raise discontent among local Mexicans, and they have, to some extent, succeeded.

As sheriff of this county I have, of course, no authority to interfere with the activities of these agitators, so long as they observe the laws. If they are able to persuade misguided Mexicans to go on strike, I cannot prevent it. I can, however, and will employ every facility at my command, to protect those who wish to work, and to protect the people of this county in the right of property and in the right to conduct their affairs without the threat of violence. That is my duty as a public official and I will undertake to perform that duty to the fullest extent.

A GOOD OUTLOOK

It is always interesting and quite often inspiring to look at the world today through the eyes of one who has lived here a long time, seen much, and formed a few solid conclusions.

The subject of a democracy is now interest ing because we are now so rapidly changing our own form of government and we have had so many changes all over the world in the last few years that we should understand the meaning of the word when we use it. If we are to have a common understanding, we must do as Voltaire said "When you discourse with me, define your terms." When we know what the word we are using means and it has the same meaning between different people, then they can discuss things intelligently; otherwise, they can-

ASSASSINATING CIVILIZATION

It is always the tax-spenders who, over a period of years, assassinate civilization. Waste, extravagance and graft, legal or otherwise, rot out the heart of a nation and eat the vitals of business,-federal, state and local. We assassinate civilization by degrees when we spend \$2,000,000,000 paying farmers and producers not to produce; rewarding idleness; penalizing thrift and reducing the production of food and clothing supplies below actual requirements.

Waste and taxation are not a political issue; it was bipartisan. Our legislators who sanctioned these things, were members of both parties. It represented the best judgment of both parties and to that extent became an acsideration that does credit to the people of the cepted policy of the government. So, this assassination of civilization cannot be solved by party vote; almost half of our states and more than one-third of our Congressional Districts are one-party units. No matter who is elected President or to the Lower House of Congress, the Senate will be, undoubtedly, Democratic for two and probably four years, plus Republican Senators who voted for these measures and have not yet repented.

There is no use beating the Devil around the bush; no use stalling; citizens who pay direct tax, and who want taxes reduced, should vote for those Senators and Congressmen and taxing officials who will work for that end. regardless of party affiliations of either the official or the citizen

The American Tax Payers League says: While the Administration must take a lion's share of the responsibility for the disbursement of these funds, they probably have done as good a job of it as any other party could have done. It is as wrong in practice as it is in principle. It is a continuation of fallacies as fundamental principles of government, such as paying the producer not to produce and paying the laborer not to work, that must be pass- ship of the state ed upon at the polls.
